A Place of Art.

Pittsburghers are justly proud of the position occupied by the city in the various walks of art. Not only are the more heavy and substantial carried to a pitch of perfection among us, which places our city pre-eminent above all others on the continent, but also the fine arts are cultivated to an extent of which any city might be proud. More particularly is this the case with the photographic art. This art has progressed until a first class photographer ranks with the best of ideal painters or sculptors. Among the most perfect of our photographic artists is Mr. B. L. H. Dabbs, No. 26 St. Clair street. One of the most convincing proofs of the appreciation in which the works of Mr. Dabbs are held, aside from the immense patronage extended to him, is afforded in the throngs that daily visit his galleries and gaze in at his windows to inspect the beautiful productions of his genius. We have heard visitors from the great eastern cities and from Chicago, while looking at the admirable exhibitions afforded here, say that nothing in any other city surpasses the work turned out by Mr. Dabbs. Every style of work known in photography is equally well done by Mr. D., and every taste can be thoroughly satisfied. For photographic work of any kind, go to Dabbs.

[From the Chicago Tribune.]

We publish to-day a very interesting letter from a highly respectable and well known citizen of Chicago, on his remarkable restoration to health from consumption. It certainly bears very strong testimony to the efficacy of the mode of treatment to which it refers:

190 WABASH AVENUE, CHICAGO,

EDITOR CHICAGO TRIBUNE:—I desire through your columns to state a few facts relative to my restoration to health and active life through the peculiar treatment of Dr. Hunter. My family are all of a consumtive tendency, most of them having died of that disease. In the year 1856 I was greatly reduced with cough and expectoration, but at that time improved under the influence of a visit to the South. My heart has been diseased for many years. About the 1st of January last, however, all my symptoms became greatly aggravated, my cough was distressing, my breathing short and with chills and fever, entire loss of appetite and consequent emaciation; pulse one hundred and twenty-five beats a minute. In a word I was in as prostrate and hopeless a condition as a man could well be. Friends had abandoned all hope of my recovery.

In this condition I was fortunately induced to call in the aid of Dr. Hunter, and was placed under his treatment early in January. In the course of the first month I began to show evidence of decided improvement. The cough, which had resisted all the ordinary means in use, and which was very violent in its character, gave way gradually, in the most singular manner, to the use of the Inhaler. My night sweats stopped soon after, all the unfovorable symptons disappeared, one after another. My appetite returned; strength increased; countenance, before deadly pale and emaciated, has become full and healthy; and my weight in three months has increased twenty pounds. So that frieds who meet me on the street, never expecting to see me abroad again, can hardly believe it is myself. At the termination of three months, from the time of placing myself under Dr. Hunter's care, I find myself enjoying such health as I have not had for years, and never expected to enjoy again in this world. And feeling that I owe it all to the attention and skill of Dr. Hunter, I make this public avowal of the facts as due to him and his remarkable practice in the treatment of consumption.

Your obedient servant,
WM. J. KING.

(SECOND SESSION.)

WASHINGTON, March 1, 1867.

SENATE.

CONSIDERATION OF THE TARIFF BILL.

Mr. SHERMAN moved to discharge the Finance Committee from the consideration of the House bill to increase the duty on wool. He then introduced a bill in the precise language of the wool section of the Senate tariff bill, and moved it as an amendment to the House bill.

In the Senate provision relative to carpets Mr. TRUMBULL announced his preference for the House bill, with which his constituents were satisfied.

Mr. CATTELL said he intended to offer an amendment, increasing the duties on all imported articles twenty per cent., except sugar, tea, coffee, molasses, lumber, and railroad iron. The tariff bill was then laid aside.

DEFEAT OF THE COLORADO ADMISSION BILL.

At one o'clock the Colorado admission bill came up. A vote was taken, resulting as follows:

Yeas—Messrs. Anthony, Cattell, Chandler, Conness, Cragin, Cresswell, Fowler, Frelinghuysen, Henderson, Howard, Howe, Kirkwood, Lane, Morrill, Nye, Poland, Pomeroy, Ramsey, Ross, Sherman, Sprague, Stewart, Trumbull, Van Winkle, Wade, Willey, Williams, Wilson and Yates—29.

Nays—Messrs. Buckalew, Cowan, Davis, Dixon, Doolittle, Edmunds, Fessenden, Foster, Grimes, Harris, Hendricks, Johnson, McDougall, Morgan, Nesmith, Norton, Patterson, Riddle and Saulsbury—19.

Less than two-thirds having voted yea, the bill fails.

CONSIDERATION OF THE INTERNAL REVENUE BILL.

The Internal Revenue bill was next taken up.

Mr. WILSON moved an amendment taxing cotton on and after the 1st of September two cents per pound.

Mr. HENDERSON moved to substitute therefor, that there shall be no tax on cotton grown after the passage of this act.

Mr. Henderson's amendment was lost by a tie vote.

Mr. POMEROY moved to amend Mr. Wilson's amendment by reducing the tax to one cent, which was adopted by 21 yeas against 19 nays.

Mr. Wilson's amendment as amended by Mr. Pomeroy was adopted by 24 yeas against 18 nays.

Several important amendments were offered and rejected.

On motion of Mr. SHERMAN the amendment was adopted that the tonnage duty on vessels be levied and paid annually.

Mr. DAVIS moved to change the whisky tax to two dollars until October, a dollar and half until April, and a dollar thereafter. Rejected.

On motion of Mr. HOWARD, an amendment was adopted, that this act shall not affect suits commenced under former acts.

On motion of Mr. FESSENDEN, an amendment was adopted, that no suit in equity or otherwise, for any other purpose than restraining the assessment of any tax, shall be maintained in any court.

On motion of Mr. FESSENDEN, syrup and molasses was included with refined sugar and product of sugar refineries, in the tax of 1¼ per cent., *ad valorem*. The bill was then reported, which struck out section 32 relative to the transfer of spirits of turpentine without the payment of tax in tar bonded warehouses on the execution of proper bonds, and be treated in conformity to the law regarding distilled spirits.

The Senate refused to strike horse rakes, horse powers, tenders, haimes, hay forks, horse and portable grinding mills, from the free list. The cotton tax was again amended and placed at two cents. Potatoe hooks, pitch forks, manure and spading forks were restored to the free list as in the House bill. Leather of all kinds and goat, deer, calf, kid, sheep, horse, hog and dog skins, tanned or partially tanned, curried or finished in the rough were striken from the free list. The tax on gas companies was amended so that they are authorized to add it to the price of gas. Pianos were stricken from the free list.

The report of the Conference Committee bill for the allotment of Supreme Court judges, agreed to the Senate bill as adopted. Executive session.

Evening Session.—Mr. LANE called up the House resolution extending the jurisdiction of the court of claims to cover cases arising under receipts for army stores, by the quartermaster of the army, under General Wallace, during the Morgan raid into Indiana and Ohio. The resolution passed, and goes to the House for concurrence in the verbal amendments.

TAX BILL.

The internal revenue bill came up.

Mr. DAVIS renewed his amendment relative to the tax on whisky. Rejected, 14 against 23.

Several new amendments were rejected, and the bill passed; it goes to the House for concurrence in the amendments.

APPROPRIATION BILLS.

The fortifications appropriation bill was taken up. The section providing that not over fifty per cent. of the amount appropriated be expended in the fiscal year ending June, 1866, and the residue held not to be expended till otherwise ordered, was stricken out, and the bill passed.

The Naval appropriation bill was taken up.

On motion of Mr. FESSENDEN, an amendment was adopted that the Naval storekeepers shall hereafter be appointed by the President, by and with the advice and consent of the Senate.

On motion of Mr. WILSON, it was agreed that no working man in the Navy Yards shall be compelled to pay money for political purposes.

The Senate refused to reconsider the vote passing the bill establishing a Department of Education.

Mr. SHERMAN, from the Committee of Conference on Legislative Appropriations, reported that they had agreed on nearly all the amendments.

The Senate further insisted on the disagreeing amendments, and asked another conference.

The Tariff bill was resumed, but without action on the pending amendment to increase the duties on all articles, except tea, coffee, sugar, molasses, coal, and railroad iron, twenty per cent.

The Senate at 12:30 adjourned.

HOUSE OF REPRESENTATIVES.

IMPROVEMENT OF THE OHIO RIVER.

Mr. FINCH from the Committee on Roads and Canals, reported back the memorial in reference to the navigation of the Ohio river, and the Committee was discharged from its further consideration.

THE DEFICIENCY BILL.

After some important business, the House went into a Committee of the Whole on the deficiency bill, which appropriates a little over eleven and half millions, of which ten millions are for deficiencies on account of others. On motion of Mr. SCOFIELD, an appropriation of eight thousand nine hundred and forty dollars for bronze doors for the Capitol was struck out.

Mr. CHAFDLER moved an amendment to be added as a proviso to the clause for Census marshals, this or any other appropriation should be paid to any officer of the of the government, who was a member of any political club or partizan organization, and he made a speech in enforcement of his views on the amendment.

Rejected.

Mr. KASSON moved an amendment to the same clause providing that no money under it should be paid to, or on account of, any claimant who participated in the late rebellion, or gave to it aid or comfort. Adopted.

Mr. GARFIELD moved an appropriation of $20,000 for expenses of the Fort Kearney Massacre Commission. Rejected.

Mr. GARFIELD moved an appropriation of $25,000 for the purchase of Carpenter's painting of the first reading of Lincoln's Emancipation Proclamation.

Mr. SCHOFIELD made a point of order against the amendment, and the objection was sustained.

Mr. PRICE moved to strike out the appropriation of $35,000 for completing repairs and furnishing the Executive Mansion. Quite a discussion occurred, involving the old subject of an alleged number of trunks taken away by the former occupant, and the statement that some $30,000 of a previous appropriation had been expended in refurnishing the White House with table linen, bed linen, &c., at the time the present occupant took possession. Mr. Price's motion was finally amended that no further appropriations be made for repairing or furnishing the Executive Mansion until such account be submitted to a joint committee of Congress and approved, and then rejected by 44 against 53.

Mr. THAYER moved to strike out the paragraph appropriating $50,000 to aid the American Colonization Society in furnishing transportation to Liberia.

ESTABLISHMENT OF ASSAY OFFICES.

Evening Session.—The Senate bill for the relief of Dempsey Reis, of Indiana, from a mail contract entered into by mistake, was passed. Several District of Columbia bills were passed.

ACTION ON CONFERENCE REPORTS.

The House agreed to the conference report on the bill for allotting Judges of the Supreme Court.

The House recedes from its amendment for the appointment of United States Marshal by the Supreme Court of the District of Columbia.

Mr. STEVENS, from the Committee on Appropriations, reported back the Senate amendments to the army appropriation bill; that of $250,000 for the Rock Island bridge was, after debate, non-concurred in by 39 against 108; that appropriating $150,000 for buildings near Jeffersonville Indiana, as a government store house, was non-concurred in.

The amendment prohibiting the whipping or maiming of persons as a punishment for crime in the rebel States, was concurred in, with an amendment making it apply to the sentences of military courts as well as by the civil authorities.

Pending its consideration, Mr. LE BLOND submitted a resolution reciting the recent vote in the Ohio Legislature, refusing to strike out of the State Constitution the word "white," thereby repudiating the action of the Republican majority in Congress, and instructing the Committee on Reconstruction to report a bill establishing a Military Government over the so-called State of Ohio, until such time as the people thereof shall adopt a Republican form of Government. (Laughter.)

Mr. STEVENS thought he could almost agree to the resolution. He was quite sure that Ohio should be guaranteed a republican form of government and also Pennsylvania.

The amendment for the disbanding of the militia force in the late rebel States was concurred in.

That allowing traveling expenses to volunteers mustered out in distant territories was concurred in.

The amendments being all disposed of a Committee of Conference was asked for on the disagreeing votes.

Mr. JENCKS, from the Committee of Conference on the bankrupt bill, made a report that the House recede from its disagreement to all the Senate amendments, except one from which the Senate is to recede.

Mr. MAYNARD moved to lay the conference report on the table. Rejected by 71 against 83.

The report of the Committee of Conference on the Indian Appropriation bill was agreed to.

The Senate insisted on its amendment to the Internal Revenue bill, and agreed to.

A conference was asked by the House.

The Senate also insisted on its amendment to the army appropriation, and agreed to the Conference Committee.

The motion to adjourn was negatived, the previous question was seconded and the main question ordered.

A message from the Senate announced the passage of the tax bill and asked the concurrence of the House.

The report of the Conference Committee on the bankrupt bill was agreed to; 73 to 71.

The Senate amendments to the tax bill were considered, non-concurred in and a Conference Committee asked.

The Veto to be Sent to Congress To-day.

WASHINGTON, March 1, 1867.

ADMISSION OF NEBRASKA.

The President has issued a proclamation declaring and proclaiming the fact that the fundamental condition imposed by Congress on the State of Nebraska, to entitle that State to admission into the Union, has been ratified and accepted, and that the admission of said state into the Union is now complete.

LIQUOR FRAUDS.

The government has detected numerous liquor frauds in distilleries, by means of a newly invented Saccharometer, and in consequence several distilleries have been seized and closed.

THE MEXICAN NEWS.

The Mexican legation has received official news from Matamoras, dated the 19th ult., about the engagement of General Rocha at Yolliners, with Mejia's troops under Castillo, which shows it was a very small affair. Official reports read as follows:

"After Miramon's complete defeat by Escobedo at San Jacinto, on the 1st instant Castello retreated to Dalores, with three thousand men. General Rocha believing them demoralized, sent three hundred cavalry under General Heneray Carro, to harrass them in the rear. As might be expected, they were repulsed, General Carro losing twenty of his men, and being himself among the killed."

The Mexican legation has received also official news from President Juarez, dated at Zacatecas, on the 6th ult. The President was expected to leave in a few days for San Luis Potosi.

[From the Times Correspondence.]

No part of the reconstruction veto message was prepared until Wednesday, and it was not completed until last night. The reports of the Cabinet considering it on Tuesday are unfounded. The message will be read by the Cabinet to-day at noon, and immediately thereafter sent to Congress.

The veto of the tenure of office bill will be sent in on Saturday.

The necessary papers having been laid before the President, it is probable Nebraska will be represented in the Fortieth Congress as a State.

[From the Tribune Correspondence.]

The Conference Committee on reimbursing the iron clad contractors, have agreed to the House amendments to the Senate's bill, which sends the matter to the Secretary of the Navy and virtually ends all hopes of relief to the contractors.

The opinion prevails that the President is holding back his veto of the Reconsruction bill so that the Democrats may filibuster the bill to death when the message appears.

Louisianians in Washington say if the Reconstruction bill becomes a law, Governor Wells of that State, will at once order an election of delegates to a Convention to remodel the Constitution and have Louisiana represented in Congress as soon as possible.

The monthly statement of public debt will probably show no diminution since January. During the present month interest has matured on the one hundred millions seven and three tenth notes absorbing all profits.

[From the Herald Correspondence.]

There was a rumor in Washington last night that the President contemplates a clean sweep of his Cabinet with but one exception. It is said Judge Black is to become Secretary of State. The one exception is Judge Stanberry, Attorney General. A gentleman who has been a member of two Cabinets, and who served as a General in the rebel army, now in Washington, says the President at first intended to sign the Reconstruction bill, but afterwards changed his mind and thought he would pocket it, in accordance with the advice of the elder Blair. Again, afterwards, he said he would veto it, and the message would be a strong legal document. The gentleman is of opinion that Mr. Johnson is really incapable to fill the position he occupies, as he is too much under the control of his Cabinet and one or two outside rings, and he firmly believes the President would have signed the bill had it not been for the influence of Mr. Seward and Mr. McCulloch.

[From Dispatches to the Evening Chronicle.]

A number of important impeachment witnesses have arrived here from the South. They were taken before the Judiciary Committee this morning.

Mr. Bigelow, formerly United States Minister to France, is in this city.

It is stated that a friend of the President has gone to Richmond to urge the Legislature of Virginia to adopt the measures proposed in the military bill so as to become a State in the Union as speedily as possible. The Legislature is holding secret sessions in consequence.

The veto has not yet been sent in. It is not doubted that Mr. Greeley, Mr. Reverdy Johnson and Thurlow Weed have earnestly advised the President to sign the reconstruction bill. The veto message is, however, inevitable, and will be about four columns in length. All the stories about the President hesitating whether to sign the bill or not, about the completion of the message some days ago, and its consideration by the Cabinet on Tuesday last, were without foundation; in fact the subject has been under consideration by the Cabinet, but only a part of the message was prepared until yesterday, and it was not completed until last night. The message will be read in the Cabinet to day, and sent to Congress immediately thereafter.

It is expected that the Tenure of Office bill will be returned with the President's objections, on Saturday, and unless Congress shall agree to strike out the objectionable provisions as to the Cabinet officers, and pass the bill minus the provisions, it will probably fail to become at law a this session. The opponents of the measure have determined, unless changes are made, to fillibuster the bill to the end of the session.

A vigorous effort is being made to pass a joint resolution in case of the failure of the tariff bill, increasing the duties on certain foreign articles that come in competion with our domestic fabrics and growth.

All action on the last nominations of Collectors and Assessors of the Internal Revenue, seems to have been postponed untill the new Congress.

The Tariff bill is laid up to dry. The tax and bankrupt bills will probably be passed this session.

Horace Greeley is loath to give up the Tariff bill. He thinks it may yet pass. He says it will certainly be considered early in the next session, and to continue until disposed of.

The Washington County Murder Trials.

We have already stated that Robert Fogler was convicted at Washington, last week, of the murder of Robert W. Dinsmore, in December last. The fact that William Montgomery, son of a prominent lawyer and politician of Washington county, was indicted as being accessory to the murder, is also familiar to our readers. Young Montgomery was brought into Court for trial on Monday last. For the Commonwealth, District Attorney Crumrine, N. P. Fetterman of Pittsburgh, and H. J. Vankirk appeared, and for the defence Messrs. William McKennan, D. S. Wilson, Alexander Wilson and Hart and Brady, all of Washington. All day Monday was occupied in getting a jury. On Tuesday, Mrs. Dinsmore, the widow of the murdered man, was examined. We are informed she did not fully and clearly identify Montgomery as Folger's associate in the murder. On Wednesday, Folger was put on the stand as a witness for the Commonwealth, but he refused to testify. At the Coroner's inquest he explicitly stated that young Montgomery was his associate in the crime, and an *alibi* was attempted to be proven on behalf of Montgomery. We are not informed as to the result of the latter's trial; but a conviction was hardly deemed practicable in the event of Folger's refusal to testify.

Folger has been sentenced to be hung, by Judge Acheson, on such a day as the Governor may indicate.

The excitement in Washington is represented as being most intense in regard to these trials. The town is crowded with visitors from all parts of the country.

An Abusive Husband.

On Thursday evening Mrs. Carrie Edwards, living in the First ward, Allegheny, came before Mayor Morrison, and swore to a statement, if true, which places her husband, Philip Edwards, in a most obnoxious light. She alleges that Philip's treatment of her has been of an exceedingly outrageous character, and that recently he knocked her down, kicked her and beat her head severely against the wall. He then seized their infant child and catching up a butcher knife, threatened to cut the little one's head off. Mrs. E's screams, as she states, brought the neighbors to the rescue of herself and child. She also states that recently she was sick in bed for three weeks because of her husband's treatment. Officers Campbell and Nixon arrested the accused on Thursday evening, back of Seminary hill. He showed fight and struck at the officers with a knife, but was arrested and locked up. Last evening the case was settled between the parties on the understanding that the effort of the wife to obtain a divorce shall not be opposed by the husband. Edwards is from Philadelphia, and served, as he states, in the Mexican war, as well as during the war of the rebellion. He has, we hear, for a long time lived very unhappily with his wife.

Tin, Copper and Sheet Iron Ware.

Our readers are directed to the advertisement in another column of Thomas Roberts, practical tinner who has succeeded J. H. Oliver, in the old and well known establishment, No. 61 Smithfield street, near Fourth. Mr. Roberts was formerly a member of the firm of Roberts & Barnes in the same business, and is a practical and thorough mechanic. He gives special attention to his business and warrants to give satisfaction in the performance of all work entrusted to his charge. Tin, copper and sheet iron ware manufactured at the slightest notice, while a full supply of stoves, japanned, pressed and block tin ware, fancy goods' bird cages, cutlery and house furnishing goods in general, which he will sell at most reasonable prices at wholesale and retail. Prompt attention is given to repairing, spouting and all kinds of job work. We commend Mr. Roberts to the patronage of our readers knowing him to be fair dealing, courteous and obliging and a first class mechanic.

James E. Murdoch.

The Mercantile Library Association merit the thanks of the intellectual, lecture-going community for the splendid literary feasts they have afforded this season. Mr. Murdoch, the brilliant elocutionist and reader, than whom there are none more brilliant in the country, will give his final reading tonight at City Hall. The programme, which is published elsewhere, embraces the poetic, grave and humorous gems of English literature, and all who attend may safely anticipate an evening of rare enjoyment. Elsewhere such a programme would attract thousands, and we are sadly mistaken in the high character of the people if City Hall be not crowded to its utmost capacity to-night. A patriot himself, one who has given his time, money and children to the cause of our Union in its bitter hour of sorrow, Mr. Murdoch pours forth in his patriotic recitations his whole soul, and creates the intensest enthusiasm in his audience. By all means go to the readings tonight.

Wearied in Well-Doing.

We announced yesterday morning, that Freddy, or "Daddy" Diehl had given Mayor Morrison a solemn promise to drink no more, but to lead a life of sober up rightness. We regret to say that Freddy has gone back on his pledge, and has again fallen into by and forbidden paths. Yesterday he was perambulating Federal street very drunk. He met the Mayor, and approaching him, asked leave to accompany him to the office. On reaching the office, he told the Mayor that that pledge was too much for him, and he believed the effect of having gone without one of his accustomed drinks was to make him even drunker than usual when he *did* drink. He finally requested that his Honer would send him up for thirty days, as that might assist him to keep his pledge for a little while at least. His request was complied with.

Another One.

The Mayor's police have arrested Frederick F. J. Pridham, charged with fraud by A. H. Lewis, an oil dealer on Water street, New York. Pridham, it appears, was employed as an agent by Lewis, for the sale of oils, and has been traveling in Pennsylvania for some time. Notwithstanding the fact that he has made a number of sales, he had neglected to make any return of funds to Lewis. A letter was received by Mayor McCarthy, some days since, from Lewis, stating that Pridham was now in this city, and requesting that he be arrested. In accordance with this request, Pridham was taken into custody, and is now in the lockup. Mr. Lewis was informed of the arrest by telegraph, and an answer has been received stating that he would reach this city during last night.

Fair Continued To-day.

The Fair and Festival gotten up by the ladies of St. Peters church, at Neville Hall, corner of Fourth and Liberty streets, will be continued during to-day, and will wind up this evening. All who sympathize with the laudable objects of the Fair should not fail to embrace this last opportunity. There are yet many articles remaining unsold which can be purchased at bargains. Excellent dinners and suppers will also be served up; and those who visit the Fair will undoubtedly leave the Hall well satisfied with any investment they may be pleased to make.

Alleged Larceny.—Frances Foster, living on Roberts Street, Seventh ward, made information before Alderman Strain, yesterday, charging James Montouth with the larceny of seven dollars. She alleges that the defendant came to her house, and that she during the evening placed her pocket-book, containing the money, between the beds on her bedstead, that no other person might get hold of it. She went out for a short time, and when she came back the money and Montouth were gone. Those in the house declared that no other person had been in the room, hence the information. A warrant was issued.

Dunned Him Too Much—Michael Barrett is a laborer, working at the freight depot of the Pittsburgh, Fort Wayne and Chicago Railroad. Mrs. Shaughnessy claims that Michael owes her a little bill, and she has a habit, as he alleges, of coming almost daily to his place of work and dunning him for the payment, thus interferring with his work and making him a laughing stock to his fellow laborers. He therefore made information against her for disorderly conduct, and the case had a hearing yesterday. The result was the dismissal of the case at cost of the prosecutor.

Alleged False Pretences.—L. Hawkins, a grocer on the corner of Wylie and Chatham streets, made information before Alderman McMasters, charging E. D. Carnahan with false pretences. It is stated that the accused obtained of the deponent goods to the amount of twenty-one dollars, by representing himself as a member of the firm of Patterson & Hoover, Temperanceville, whereas he was not in any sense a partner in said firm. A warrant was issued.

The Pantaloons Larceny.—Michael Welsh, charged on oath of Frank Hebling with stealing a pair of trousers entrusted to his charge, had a hearing before Mayor McCarthy yesterday, and in default of $300 bail, was committed to jail.

Attempted Burglary—The Perpetrator Failed.

Another bold attempt at burglary was made yesterday morning in Allegheny, in the Fourth ward. At about a quarter past three o'clock in the morning officer Poland, of the night watch, was passing down Morgan street, when he saw a man come out of the back door of a boarding house on the corner of Lacock and Morgan streets, and go down into the basement by the front way. The officer went to the spot, and as he reached the opposite corner the man came up out of the basement, and catching sight of the officer started down Morgan street at the top of his speed. The officer called on him to stop, and being disregarded fired after the fugitive, but in the darkness missed him. Officer Patton, attracted by the noise, joined the pursuit, and the two followed the running man a considerable distance, but at length, by dodging through some of the multitude of dark corners and alleys which abound in Allegheny, he managed to make good his escape. The officers then went back to the boarding house and examined the premises. They found the back door of the house and the front basement door standing open. The family were aroused and search made, but nothing apparently had been taken. It is probable that the operator had got his arrangements all made and came out to see if the coast was clear before commencing operations. Finding it was not all clear he "skipped" as stated. He is probably one of the gang who have been operating so largely recently.

Catarrh of the Nostrils.

This is a disease now of frequent occurrence, and is always easily cured by Dr. Keyser's Pectoral Syrup taken alone in its early stages, and alternated with Dr. Keyser's Lung Cure when the complaint is of long standing and has assumed a chronic character.

The two remedies will nearly always cure the disease if its use be continued until the blood is thoroughly renovated and the stomach and general health brought to a proper condition. If persons subject to colds and coughs, recently acquired, would at the outset take Dr. Keyser's Pectoral Syrup, none of them would ever lapse into chronic coughs and catarrhs. But perhaps you will say, "is not catarrh a disease of the lining membrane of the nose, known in medicine as the *schneiderian membrane,*" and if so, how do you propose to cure it with a cough medicine? My answer is, that I will cure it exactly in the same way that I would cure a cough, by eliminating from the system, those morbid collections which impede the circulation of the blood and stagnate it, or produce congestion in whatever organ becomes the object of attack. Thus, by dissolving and carrying out of the system the morbid accumulations which are continually accruing in disease, I relieve and restore to healthy action, the delinquent organ. I can do this in every recent case of a cold, or catarrh, or influenza, by Dr. Keyser's Pectoral Cough Syrup. Prepared at the great medicine store, No. 140 Wood street. Consultation rooms for lung examinations, No. 120 Penn street, from 9 A. M., until 4 P. M.

Amusements.

OPERA HOUSE.—To-night, Miss Thompson personates Parthenia in the beautiful play of Ingomar. We know of no character in the range of the acting drama, so well qualified to show to advantage the peculiar characteristics of this excellent actress.

We would suggest, by the way, to the low comedian of the Opera House, that his persistent habit of attempting to palm off stale vulgarisms as wit, is becoming very odious to all visiting the establishment whose judgment merits consideration. Filthy *double entendre*, and caricature so broad as to sink into positive indecency, may draw forth the plaudits of the unthinking, whose judgment of theatricals is exactly on a par with that of the offending actor; but their ultimate result is to belittle the actor and degrade the stage.

VARIETIES THEATRE.—At this popular place of amusement the attraction still continues great and really first class performances are offered each evening. The managers are entitled to success in their efforts to please those who may attend. A good bill is offered to-night.

Through the courtesy of S. T. Paisley, Esq., Superintendent of the Pittsburgh Fire Alarm Telegraph, we are enabled to present the following statement of the fires and alarms in the city for the month of February:

During the month there were only eight alarms, only two of which were general. The largest fire of the month was that which destroyed a portion of the Atlas Works in the Ninth ward. Two hundred and eighty-eight blows were struck on the general alarm bell. The total of the losses by fire was $28,410. The total of the insurance was $29,303.

District Court.

Before Judge Williams.

Wooldridge Oil Refining Company vs. Equitable Insurance Company. Before reported. This case occupied all of yesterday's session. Robert Wood's addressed the jury for the defendants, and the argument in the case was closed by Jas. Veech, of counsel for the plaintiffs. The case went to the jury, but no verdict had been rendered at adjournment.

Common Pleas Court.

Before Judge Mellon.

G. Kaun & Bro. vs. Adam Fuhr et al. Before reported. Occupied all of yesterday's session. The jury had not returned a verdict at adjournment.

Oyer and Terminer, &c.

The March term of the Criminal Court will commence on Monday, with Judge Sterrett on the bench. Assistant District Attorney Biddle has over one hundred indictments prepared for the action of the Grand Jury.

Burglary.—At some time during Thursday night, the tin shop of Mr. P. C. Duffy, on Grant street, near the corner of Seventh, was entered by some person or persons unknown. The burglars gained entrance by prying the front door off its hinges. Nothing was taken from the shop, so far as ascertained, and it is probable that the perpetrators were frightened away before they had got fairly to work. A family had occupied the upper portion of the building, until the day before the burglary, when they removed, taking all their effects with them. It is thought that the robbery of the dwelling formed the principal portion of the burglar's plan.

Another Buggy Smashed.—John Campbell, of the firm of Campbell & Aiken, livery stable keepers, on Fourth street, yesterday came before Alderman M'Masters, and preferred a charge of misdemeanor against Patsy Quinn and another boy named Woods. It is alleged that the accused hired a buggy from deponent recently, and that by malicious recklessness, they smashed said buggy. Warrants were issued.

A Run on the Bank.—A locomotive attached to a train on the Panhandle Railroad yesterday morning, jumped the track near the city and ran down a high embankment, being pretty nearly demolished by its unusual trip. Fortunately the couplings broke and none of the cars followed the example of the engine.

Assault and Battery With Intent to Kill.—Justice Morrison, of Patton township, yesterday committed to jail Joseph McClugston, charged, on oath of Catherine his wife, with assault and battery with intent to kill.

Important to Bail.—To-day is the last day of the December term of Court, and all bail not previously renewed must be renewed to-day, otherwise it will be forfeited. All interested should note this and act accordingly.

Committed for Trial—Mayor McCarthy yesterday committed to jail, to await his trial at Court, Jas. Mulkrone, charged, on oath of Ann Connolly, with assault and battery. Bail in the sum of $300 was required.

New Juries.—The juries in attendance in the District and Common Pleas Courts for the past two weeks, were discharged yesterday. New panels will be in attendance on Monday.

Got Bail.—Michal Driscoll, committed to jail some days since by Alderman Humbert, on a charge of surety of the peace, got bail yesterday and was released.

Let Out.—John Hatfield, committed by Mayor McCarthy, to await his trial for fornication and bastardy, was released yesterday on bail.

The Matrimonially inclined should order a dozen of those perfect fitting FRENCH YOKE shirts at Murdock & Putnam's, 72 Fifth street.

The Dental Monthly.—Dr. George W. Spencer, the well known and popular dentist, No. 254 Penn street, sends us the fourth number of his monthly—Spencer's Dental and Surgical Journal. It is gotten up in a neat and artistic manner, and reflects the highest credit upon the taste of the publisher. It circulates *free*-ly, and if it continues to win favor so rapidly, it will eventually take the letter list from the widely circulated *Leader*. Dr. Spencer is full of enterprise, and this monthly is worthy of his high professional reputation. Stop in at his his office and obtain a copy, gratis. It will amuse and instruct you and tell you where to have your teeth extracted, old ones plugged and new ones inserted.

Assaulted.—Dudley Boyle is the proprietor of a "lifting machine" which many of our readers have noticed standing on the street. A few days since Mr. Boyle had his little testing apparatus over in Allegheny, and while using it was attacked, as he alleges, by Bernard Short, who upset the machine and then assaulted the deponent, abusing him without any cause whatever. Mr. Boyle made information before Alderman Strain, yesterday, charging Short with assault and battery. The prosecutor resides at No. 86 Webster street, and the defendant lives in Birmingham. A warrant was issued.

CARD---TO THE PUBLIC.
OFFICE OF THE PACIFIC AND ATLANTIC TELEGRAPH CO. OF THE UNITED STATES, PITTSBURGH, February 27th, 1867. }
THE EFFECT OF THE ESTABLISHMENT of the PACIFIC AND ATLANTIC TELEGRAPH COMPANY OF THE UNITED STATES, has been to cause a reduction of over one-half in the charges for the transmission of telegraphic messages between various points and the City of Pittsburgh.
This reduction has occurred where the wires of this corporation enter into competition with those of other lines, and is a result contemplated in its establishment, and in harmony with the views and desires of its managers.
As the corporation extends its lines to other sections of the country, similar results will follow its wires, and the public receive increased benefits, with the increased magnitude of the Company.
The sure results of the establishment of competition with monopolies are increased facilities and lessened charges. The permanency of such benefits is only obtained through persistent and liberal maintenance of opposition.
The generous patronage the PACIFIC AND ATLANTIC TELEGRAPH COMPANY OF THE UNITED STATES has received through all its offices, merits those thanks which its Board of Officers offer the public.
In view of the benefits the corporation has already worked for the business communities its wires reach, it is proper to solicit a continuance and increase of that patronage.

SATURDAY, MARCH 2, 1867.

THE POOR.

Whenever the business interests of this country become embarrassed, no matter from what cause, the Democratic organs set up a prodigious out-cry for legislation in behalf of the poor. Like the monkish recluses and ascetics of the Middle Ages, they hold it a great merit for a man to be sorely smitten, and to go about, covered with rags and vermin, begging for bread. If credit should be given them for sincerity it would be necessary to conclude they believed every prosperous man a Dives, and every pauper a Lazarus; that wretchedness was a badge of virtue, and comfort a proof of vice; that paupers were the only class deserving of "special legislation," and were entitled to demand it at all times and to any extent. Still, we do not see that prosperous Democrats are anxious to get rid of their prosperity, or are less eager to gain more than other people. They are careful as can be to make provision for "a rainy day," and do not act as if they thought by so doing they were forfeiting claim to the protection of the Government, or justly exposing themselves to condemnation. Hence, we feel more than a suspicion—an absolute certainty—that the clamor they raise against the rich is purely hypocritical.

A poor man is as good as a rich one. He has just the same claim and no more, to the protection and aid of the government. "All men are created *equal.*" That, we admit. But we do not believe in a pauper aristocracy, with peculiar claims and privileges, over and above those of other folk. It is enough for the pauper class that their claims reach the poor fund, but do not go beyond it. A government that should restrict its functions to taking care of the poor, leaving all the business classes to shift for themselves, would clearly be entitled to revolution, and "nothing else." It would have abdicated its chief duty, and consequently have forfeited the right to demand fealty.

A provident and thrifty farmer, mechanic, tradesman or manufacturer, merits quite as much consideration from the State as a worthless beggar. Paupers do not constitute a State; are not its stay and hope; are rather a fungus growth upon its frame, marring its beauty and proportions, and sapping the sources of its strength. To make it the primal function of government to take care of paupers, and see that they are nourished and comforted, comports with other theories of the Democrats, which, if unhindered, would pauperize the whole community, making it a sign of aristocracy, if not a penal offense, for a man to have victuals enough for two days in his house. But these agrarian doctrines are not likely to bear sway.

The great majority of the American people are not paupers; they are not poor in any proper sense of that term; but are in comfortable circumstances, as far removed from poverty as from wealth. They constitute the industrial classes who are at once the strength and glory of the country, and are entitled to have the policy of the government so shaped as to promote their welfare. When the paupers so increase, if that evil day shall ever come, as to form the majority, they will, upon the democratic principle, be entitled to have the government look out for them to the comparative exclusion of the other classes. That era might, for aught we can tell, constitute a Democratic millenium; but it is as far off, and as apparently unapproachable as that theological millenium which has baffled both prayer and expectation for eighteen hundred years, and is now, to appearance, at as long a distance as ever.

It is a happy thing for society that all classes are inseparably linked together like the various parts and articulations of the human frame, so that what is really and in the long run good for one class is beneficial to all. There are, say, ten thousand stockholders in the Pennsylvania Railroad Company, and there are about the same number dependent for subsistence upon the employment it affords. These stockholders sustain the relation of [illegible] to these employees or laborers. Their interests are not diverse, but identical. Of the gross earnings of the Company, by far the greater part finds it way into the purses of the employees and material men. In periods of pressure the dividends of the stockholders are reduced, while the wages of the operatives are curtailed in a much less degree. Wages are paid, though dividends have to be passed.

Discharged workmen, all over the country, now numbering hundreds of thousands, understand that their interests, and those of their employers, are one and inseperable. Yet more sensibly may they feel this before next summer. What a mockery, then, is it to cry, "the rich are well enough off, but the poor are entitled to the protection of the government." The idle workmen can only secure their wonted employment when the employers can resume operations. Herein is seen not only the folly but the wickedness of attempting to array class against class, and to kindle the fires of hate between those who should walk, hand in hand, helping each the other's prosperity.

But if the Democrats believe that the first duty of Government is to take care of the poor, why do they evince so implacable a hatred to all governmental interposition in behalf of the blacks? These four millions of the dusky race are much poorer than any other equally numerous class of persons in the land. They possess neither banks, nor railroads, nor factories, nor lands, nor houses, nor cattle, nor scarcely anything else but their bare hands. They are the poorest of the poor, and their cry for help fills the air. Is it the chief duty of the Government to take care of the poor? Do the Democrats believe this? Have they acted—are they acting—as if they believed this? For thirty years they legislated especially for the benefit of "rich" slaveholders, and to crush out the "poor" slaves. The only poor people they care for are those who have votes in their hands, out of which, by deceitful speech, they can be swindled.

The new Congress will, it is thought, prove a much better working body than the one now expiring. The curse of speech making, simple "gab," it is to be hoped will not exhaust *all* the valuable time in the beginning of the session, while the great interests of the country are staggering for want of proper legislation. Let the motto be with the coming Congress "less talk and more work."

The Coroner of Philadelphia urges the erection of a Morgue in the central part of that city, where the dead bodies of unknown persons may be deposited till recognized.

The people will be glad that the subject of Mormonism, or polygamy, has been severely, though justly, condemned by the House Judiciary Committee of Congress. Our nation, while blessed with many virtues, has been damned with vices which have caused all good Christians to blush with shame. Slavery has been swept into the things of the past—Mormonism remains as a blur upon our national reputation, an insult to the GOD who governs all. Freedom of religious worship, in its broadest meaning, cannot be interpreted to permit the prostitution of virtue and encouragement of a vice in itself dark enough to call down the vengeance of heaven. Let the laws be enforced and polygamy among the saints of Utah consigned to same grave where rests slavery, its twin relic of barbarism.

The Manhattan Gas Company of New York, under a limitation in its charter, is selling gas at $2.50 per 1,000 cubic feet. This gas is manufactured out of coal that costs, at the present time, *thirty-three cents per bushel.* The stock of the company is worth 400 per cent.

In Pittsburgh, the Gas Company purchases its coal at eleven and twelve cents per bushel, and charges $1.60 per 1,000 cubic feet. In Allegheny, the coal being had at the same rate, the gas costs the consumer $2.60 per 1,000 cubic feet.

Cincinnati has decided to purchase the City Gas Works and run them on its own account.

Newspaper proprietors will not be exempt from the heavy and unjust tax levied upon cash receipts from advertising. To the silence of the press throughout the country upon the subject may be attributed the defeat of the recommendation of the Committee on Ways and Means, repealing the tax.

The impeachment of the President is not an improbable event. Fresh testimony is being daily gathered, and it is hinted that sufficient evidence has accumulated to warrant an immediate impeachment.

A State Convention of Fenians was held yesterday at Utica, N. Y. No doubt the freedom of Ireland was again resolved upon.

The contemplated removal of the City Post Office from its present location meets with very general favor from all disinterested sources.

Nebraska will probably be declared one of the United States by proclamation of the President on Monday next.

Horace Greeley thinks the Tariff bill may yet pass. We fear he is hoping against hope.

—The London papers to the 13th inst., show by official parliamentary statements and police and military reports, that the late Fenian movement against Chester Castle, England, was a very alarming affair, undertaken after due deliberation, and carried almost to the verge of completion with rapidity and skill. An Irish-American officer serving in the Fenian ranks, it is alleged, betrayed the secret to the authorities, and saved, in all probability, great trouble to England. The Chief of police in Chester, states that a Fenian military directory, consisting of fifty men, mainly from New York, hold regular sittings in the chief towns of the United States.

It recognized at the time of its publication, a paragraphist says, but half the States of North America, was curiously reticent about Australia, and gave less information about Asia than Marco Polo or Bushequins.

15 YEARS AGO AND NOW.

FIFTEEN YEARS AGO HOSTETTER'S STOMACH BITTERS was struggling into notice against the prejudices which everything new, however excellent, is doomed to encounter. TO-DAY it stands at the head of all the tonic and alterative preparations in existence. Its celebrity has evoked many imitations but NO RIVALS. Physicians pronounce it the ONLY SAFE STIMULANT that has ever been introduced into the sick chamber. In the Hospitals of the Army and Navy, the Surgeons find it the very best tonic for convalescents, and report it as invaluable for sustaining the vigor of troops on the march, as a remedy for scurvy and all scorbutic affections, and as the only specific for sea sickness. California and Australia have emphatically endorsed it as the MINER'S MEDICINE par excellence, and in Spanish America and all the tropical climates, it is considered the only reliable antidote to epidemic fever.

There is no mystery about the causes of its success. It is the only stomachic and alterative in which are combined the grand requisites of a mild, pure and unvitiated vegetable stimulant, with the finest selection of tonic anti-bilious, anti-scorbutic, aperient and depurative herbs, plants, roots and barks that have ever been intermixed in a medicinal preparation.

It is also proper to state that the Bitters are sold exclusively in glass, and never, under any circumstances, by the gallon or the barrel. Imposters and imitators are abroad, and the only safeguard the public has against them is to see that the Bitters they buy bear the engraved label and note of Messrs. Hostetter & Smith, and the Government stamp over the cork of the bottle.

THE HEALTHINESS OF THE WHITE PINE.

One of the most valuable compounds that has ever been brought before the American public is that of the white pine, called POLAND'S WHITE PINE COMPOUND. It is compounded from the inside bark of the pine tree, which grows abundantly about all the New England States, and has long been known and valued for its therapeutic properties, not only by the inhabitants of that region of country now resident, but likewise to the wild Indians who formerly roamed the wilderness of the New England pine region, and from whom its great medical virtues seem to have been learned. POLAND'S WHITE PINE COMPOUND is, then, nothing more or less, as its name imports, than a complete, pleasant and effectual remedy made from the sweet inside bark of that valuable forest tree, combined with a few other well known diuretics. Its effects upon the kidneys and other secerning organs is truly surprising, but perfectly logical and scientific at the same time. It will be found exceedingly valuable in all dormant and diseased states of the mucous tissues, and we would especially recommend it where Buchu and such like remedies have failed, as being more active and efficacious for diabetes, bleeding from the kidneys, blind piles, enuresis, gravel, and nearly every disease of the mucous lining of the bladder and kidneys.

Sold by the gross, dozen, or single bottle, at Dr. KEYSER'S Great Medical Store, 140 Wood street. fe22-u5

LARGE SALE OF
KANSAS LANDS,
ON TUESDAY, THE 2d DAY OF APRIL, 1867, will be offered
AT PUBLIC SALE.
At the Eldridge House,
IN THE CITY OF
Lawrence, Kansas,
ABOUT 155,000 ACRES OF LAND,
Situate in the Counties of LEAVENWORTH, WYANDOTTE, JEFFERSON and DOUGLASS, and known as the
"Delaware Reserve."

These lands are directly on the main line of the
UNION PACIFIC RAILWAY, EASTERN DIVISION.

The Branch of the same ROAD FROM LEAVENWORTH TO LAWRENCE PASSES THROUGH THEM, and the rail road from St. Louis to Leavenworth runs along their eastern border.

IN FERTILITY, LOCATION AND ABUNDANCE OF TIMBER AND WATER, these lands are the FINEST IN THE STATE.

By the treaty with the Delawares in 1860 the Indian title to the "Reserve" was extinguished, and since that date many farms have been improved, and churches, school houses, grist and saw mills erected, and many other improvements made there n.

The climate of Kansas is remarkably healthy, and to farmers and settlers these lands offer

Greater Inducements than any Others in the West.

Also, at the same place, immediately after the disposition of the above lands, will be sold about

28,000 ACRES OF LAND,

Situate in the Southeastern part of the "SAC AND FOX RESERVE," in the county of Franklin, Kansas.

Also, a large number of TOWN LOTS AND BLOCKS in the towns of NORTH LAWRENCE, TONGANOXIE and PERRY.

The sale will commence on April 2d, 1867, and will continue from day to day until all the lands above named have been disposed of. The lands will be offered in tracts to suit purchasers.

TERMS OF SALE—One-third cash and balance in two equal annual payments, with 6 per cent. interest thereon from date of purchase.

AMERICAN
WALTHAM WATCHES.

I.—We claim, and are prepared to prove, that the American Watches, manufactured at Waltham, Massachusetts, are not only equal, but far superior to the common watches of England, Switzerland and France.

II.—While we admit that it would be difficult to excel the masterpieces of the eminent European manufacturers, and while we do not claim to have made any decisive improvements over them, we do assert and challenge a successful denial, that our superior class of watches are fully equal, *in every respect,* to the most expensive specimens of foreign chronometrical art.

III.—We claim that our watches are cheaper, more accurate, less complex, more durable, better adapted for American use, and more easily kept in order and repaired than any other watches in the market.

IV.—The reasons why our watches possess these advantages over their European rivals are chiefly:

First, Because the principle of the division of labor is carried out in our workshops to its extremest limits, not in human industry only, but in machinery as well. Every watch passes through hundreds of hands and hundreds of machines.

Second, Because we promptly adopt every new invention to perfect our machinery, and every proffered improvement in the structure of watches.

Third, Because in each of the very numerous, minute, and often microscopic parts of which a watch is made up, we attain, by mechanical power, nearly *absolute* mathematical precision and uniformity, which it is utterly impossible to achieve by manual labor. Wheels, pinions, escapements, balances, springs and screws—exact counterparts in weight, circumference and dimensions—are turned out by millions by the unerring, because unswerving, iron hands of machinery. Hence, every watch of any one style is a true copy of its model.

V.—These results enable us to defy foreign rivalry, because no similar uniformity and precision is attainable by hand, and because in Waltham alone is machinery exclusively employed in the manufacture of this intricate and delicate mechanism.

VI.—Now, as will be seen at once, this similarity in structure reduces the cost of production; it secures uniformity in results; it perpetuates and *infallibly* diffuses any excellence that may be once achieved; and makes it easy to repair any injury sustained, or replace any part that may be lost or destroyed.

VII.—In addition to these mechanical advantages, our Watches are simpler in structure, and therefore stronger, and less likely to be injured than the majority of foreign watches. They are composed of from 125 to 300 pieces. In an old English watch there are more than 700 parts.

VIII.—We began our experiment in 1850, in the face of a formidable prejudice against American watches. Our system was new and untried. We have steadily increased our facilities, until now we employ over 700 artisans, and sell 70,000 watches a year. Nearly a quarter of a million of our watches are in use to-day in every State of the Union, as well as in the Mexican and British Provinces and Colonies. Their universal popularity is the best proof of their merit that we can produce. They have won their way in spite of every opposition and of immemorial prejudices. Hundreds of dealers all over the country have expressed their preference for our products after a long and practical experience with foreign watches.

Any of the grades of Waltham watches may be purchased of watch dealers generally throughout the country.

SATURDAY, MARCH 2, 1867.

East Birmingham Improvements—The Tack Factory of Chess, Smyth & Co.

Not long since we chronicled in these columns the destruction by fire of the extensive and well-known tack factory of Chess, Smyth & Co., which stood within stone throw of the Monongahela dam No. 1, on the Birmingham side. Yesterday, in a casual visit of observation upon that side of the river, we felt anxious to see the ruins of the late conflagration, and upon repairing to the site were agreeably disappointed. From the ashes and confused masses of machinery, left by the fire only thirty days ago, phœnix-like has risen the counterpart of the old factory in a massive iron proof building. We could not believe that, Aladdin-like, such a complete and finished structure should be erected in so short a space of time, till we were informed that the contract had been awarded those most expert and skilled contractors, Messrs. William Boyd & Son. Knowing their executive capacity, Messrs. Chess, Smyth & Co. awarded them the contract, as there was no time to lose in the construction of the building, since steady demands for their manufactures poured in from all sections of the country, and had to be supplied; and again, hundreds of mechanics and workmen were thrown idle so long as work could not be resumed. Boyd & Son were equal to the exigencies, and placing a large force of their skilled workmen at the job, inside of *four weeks*, turned it over complete and finished to the firm. This was remarkably quick work, and, inasmuch as the weather was wretchedly inclement and unsuitable for building, the task might be truthfully termed herculean. Chess, Smyth & Co. were so well pleased and delighted with the little delay experienced that they generously made handsome presents to Mr. Boyd and his capable and efficient foreman, in acknowledgement of their keen appreciation of the satisfactory manner in which the work was performed, and the brief time employed in its execution. This was a deserved and flattering compliment to Messrs. Boyd & Son, who have long stood among the first and foremost of our building contractors. They give steady employment to a very large force of workman, and are at the present time engaged in constructing and completing many of the finest buildings, mills and workshops in this neighborhood. The elegant new Baptist church and other buildings which have heretofore received special mention in our columns, were built under their auspices, and stand as evidence of their ability and mechanical excellence.

THE MAKING OF TACKS.

A little tack is in itself very trifling and insignificant, but in its manufacture human ingenuity has been wonderfully developed, while the most ponderous machinery is brought to bear in the production of the tiny thing. Here we have a sample tack just pressed, fresh from the die. It takes sixteen thousand such to make a pound! In its production immense capital has been used; it has undergone numerous manipulations; accurate machinery has given it form, and, upon the whole, it is not the trifling thing it appears upon first sight. We were so impressed after being kindly shown through the mammoth works of Chess, Smyth & Co., which, by the way, has just resumed operations, and were pleased and delighted with the many interesting sights there to be seen. The factory is located on the corner of Joseph street and the Monongahela bank, a short distance above the dam, in East Birmingham. The nail and tack wing faces the river, and is a commodious, well regulated and heartsome structure, 200 feet long by 20 feet in width. It is built in the usual factory style, supported by massive brick walls and heavy iron girders. The exterior is made fire-proof by a covering of stout sheet iron, and, being neatly painted, presents quite a pleasing effect. In the interior we find running nearly the full length of the building, four ranges of machinery for the manufacture of nails and tacks, especially the latter. Two ranges of heavy shafting to drive the intricate machinery, run parallel with each other, one above, near the ceiling, and the other sunk under the floor. The motive power is drawn from an immense and powerful engine, located with the monstrous boilers in the eastern end of the building. The fly-wheel is in the centre of the building, from which the power is given the general machinery. It is sixty-six feet in diameter and makes nearly as many revolutions in a minute. The nail and tack cutting machines perform rapid execution when in operation, filling the coffers in an incredible short space of time. Next to this building is the rolling mill, where the machinery is also of great magnitude. Here the iron is squeezed, rolled and prepared for shearing. The enormous fly wheel found in this department is a subject for admiration and study. It is nearly eighty feet in circumference, and constructed of solid iron, weighing no less than six hundred and fifty thousand pounds! It performs its functions with as much regularity and ease as the almost imperceptible little wheel in our watch. The bed, upon which rests this enormous giant of machinery, is constructed of massive stone work capped with cast iron plates. This great wheel is driven by another engine of large porportions, and supplies the motive power of this department. Adjoining this building is the furnace room, where there are thirteen boiling furnaces into which the pig metal is thrown and prepared for the various operations which it undergoes till turned out in a neat nail or tapering tack.

In addition to these departments there is connected a machine shop for the use of the establishment, a cooper and carpenter shop wherein are made the kegs and boxes for the shipment of the manufactures, and a mould and packing building. In the latter, perhaps, the operation is most interesting. It is a finely finished large brick building, three stories high. Some thirty or forty girls are there employed in packing tacks into ounce papers, then pound packages, and so on. Accustomed to the work the girls show wonderful proficiency, and in tying the little ounce packages of tacks work with marvelous precision and rapidity, vieing with machinery.

In this extensive tack and nail factory—the only tack factory in Pennsylvania—are employed nearly three hundred hands, men, boys, and girls. The business is enormous. Orders are filled from all sections of the country, and the name of Chess, Smyth & Co. is known wherever tacks are used. They manufacture all the various styles of tacks in common use, and take especial care that every single package will bear the impress of superiority over any manufactured elsewhere in the world. From the little tack, up to the great iron spike, the same excellence is observed. They manufacture all styles of nails or tacks to order from any of the metals generally used. The warehouse is located at No. 112 Water street and 107 First street, where all orders should be addressed.

We take pleasure in the possession here, in the center of the great iron mart, of a manufacturing place of such magnitude and so well conducted, and the enterprise and go-aheaditiveness of Messrs. Chess, Smyth & Co. in rearing such a place to the credit and glory of our commercial interests is worthy the commendation of all who take an interest in our city's importance.

Large Meeting of all the Colored Citizens of Allegheny City, Convened in Avery College.

Rev. Jesse Devine, was called to preside. The meeting opened with prayer. William Canlet acted as Secretary.

The President stated in a brief manner the call, and on motion of Benjamin Pulpess, a committee of five were appointed, to draw up resolutions expressive of the sense of the meeting. Benjamin Pulpess was then appointed Chairman, and two more were added to make the Committee consist of seven, all comprising the principal leading men of the city, after which, the Committee reported the following preamble and resolutions:

WHEREAS, We learn from the Board on colored schools that the lease of the colored school No. 6 will expire on the first day of April next, unless immediate action is taken on the part of the Board. Our children will be destitute of a place for a public school. Among the many efforts put forth in the cause of humanity, none are more commendable than christianity, justice, and education. The thousands of colored troops of Pennsylvania, that came to their country's call, spilled their blood on the battle-field of rebellion, should be sufficient proof to wash away all objections against the public school board locating or erecting a colored school building anywhere in the city that they might consider convenient, without resorting to the use of all the incorporated power invested in them by the school law of the state, which gives power to assess and enter upon any property that the board may deem suitable for school purposes.

Resolved, That we, through this meeting inform the colored school board of Allegheny, by petition or otherwise, that school No. 6 has not fully come up to the wants and wishes of the people, the building being always of a temporary nature and teachers in adequate numbers.

Resolved, That we petition the school board to take immediate action and secure a suitable site for the erection of a new building, as will be in keeping with what the law requires.

Resolved, That we urge the board to have the school so graded as to accord with the School Law of the State on page 86, section 57, explanations 198, so as to impart such instructions as the people require, and that ungraded schools are imperfect.

Resolved, That the School Board of this State has more corporate power than any corporate body in the State, and we urge them, when any objections are made to school locations, that they deem suitable, they use the power vested in them by the school laws of the state, on page 115, section 95, which gives them power, as follows: "It shall and may be lawful for the Board of Directors, in behalf of the District, to enter upon and occupy sufficient ground for a school house, not exceeding one acre, to be used for school purposes."

Resolved, That we will urge the Board to use the lawful means invested in them to raise the necessary funds provided by law, in sections 76 and 77 and pages 94 and 95.

Resolved, That fifty pupils in daily attendance is as much as one teacher can do justice to, and neglect to provide sufficient schools is punishable by removal from office. Page 60, section 59, Decisions 113 and 114.

Resolved, That the School Board be requested to inquire if any pupils of another district are admitted in School No. 6; if so, to have them comply with the law: Page 63, Explanations 122,—If any pupils are accepted into the school by the school; if so, is it sufficient without the acquiescence of the Board; and if any teachers are employed without a valid certificate from the County Superintendent—page 76, Explanations 56.

Resolved, That when the requisite number of colored children cannot be collected in one school of color, there are now provisions in the school law of the State which excludes them from the white schools. [Page 92—Section 73—Explantions 215.

Resolved, That any action on the part of the school board to move the school in any part of the Avery College Building will be disapproved of by this meeting. Also if the Avery college trustees on board accepts of any appropriations from the public school board, at the same time allowing said school board only control of said appropriation, direct or indirect. We deem such action not in keeping with the corporate charter of said College, and we believe they would be answerable.

Resolved, That this meeting appoint a committee of three to draw up a petition expressive of the wants of the people, and present the same to the Board of Control of the Colored School.

NEIGHBORHOOD GLEANINGS.

Oil sold in Tidioute last week at $1.85 per barrel. There is sufficient tankage in that place to store 113,000 barrels; and when the tanks now contracted for are completed, they can store 150,000. There are 85,000 barrels of crude oil now on hand.

From every portion of the State, we hear of the organization of Temperance Leagues. Keep the good cause out of politics, and the present revival will be both beneficial and lasting, not spasmodic as has been too often the case.

Gov. Geary, at his speech to the Harrisburg Temperance Convention, said: "Having passed through very exciting scenes and periods in my life, I have been able to go through an extended experience without even an apparent necessity for an alcoholic stimulus. Called to govern a large and wild district upon the Pacific coast, I found no necessity there for the use of ardent spirits. I passed through the war of Mexico and of the Rebellion without it. I was nominated (and you will pardon me for this personal digression) to fill the gubernatorial chair of the Keystone State; but I did not, thank God! buy my nomination by giving men that which destroys body and soul. Though the canvass was exciting, it was conducted on temperance principles, strict and pure, and at my inauguration, I am happy to say no whisky was used. A new administration has just commenced, and I promise you that I can and will perform my duties without the use of intoxicating drink."

On Thursday of last week, five men appeared at the residence of Mr. O'Brian, in Munster township, Cambria county, not far from the line of the Railroad, and demanded supper. This was furnished them; after which, they stated that they were government agents for the detection of counterfeit money, and requested to be allowed to inspect all the greenbacks in the house. Some $40 or $50 were shown them, which they inspected, pocketed, and then with a pistol at Mr. O'Brian's head, made him give up $300 in greenbacks and $100 in gold.

Charles O'Harra, a young man who was badly injured by a railroad accident near Gallitzin a couple of months ago, died at the O'Harra mansion, near Cresson, one day last week.

In the case of Miss Clara Hosmer vs. the editors of the Meadville Journal, for alleged libel on account of publishing a report about Miss Hosmer having attempted to shoot a man for seducing her, a true bill has been found. The trial has been postponed until April.

A young man named John Fye, about twenty-two years of age, employed in chopping, near the depot in Hubbard, Ohio, was discovered on Saturday, hanging to a tree by his suspenders, near the place where he was at work. A coroner's inquest returned a verdict of "death by hanging."

The Washington *Review*, of a recent date, announces the death of Mr. Samuel Wilson, in that vicinity, in the ninety-fourth year of his age. The deceased has a surviving brother, Dr. Martin Wilson, of Cadiz, Ohio, aged ninety two years; and also a deceased brother, Dr. Thomas Wilson, of Cincinnati, who lived to be ninety-six.

OFFICE OF THE PITTSBURGH GAZETTE,
FRIDAY, March 1, 1867.

The following are the New York stock quotations for to-day: Gold, 140½@140¾; 1881 bonds, 110¾; Five Twenties, old, 111; Five Twenties, '65, 108¾; do new, 108¾; Seven Thirties, 105⅞. Michigan Southern Railroad, 72½; Cleveland and Pittsburgh, 79½; Pittsburgh, Fort Wayne & Chicago, 94; Erie, 55¼; Western Union Telegraph Company, —; Chicago and Northwestern, 35½; do preferred, 64⅝; New York Central, 102¼; Chicago and Rock Island, 95½; Gregory 12¼; Rocky Mountain, 1; Quartz Hill, 4½; Hope, 50; Smith & Parmelle, 6¼.

—In the House Representatives on Tuesday, Mr. Rollins asked leave to offer a resolution declaring the concurrence of the House in the policy of the Secretary of the Treasury in relation to the contraction of the currency with a view to the resumption of specie payments, but a torrent of objections answered the request for unanimous consent. This is something more than a straw showing which way the wind blows in Congress, that its direction against the views expressed in Mr. McCulloch's Fort Wayne speech.

—The Western money markets are without material change. At Chicago first-class paper is discounted with moderate freedom when backed with collaterals; but that of the second class is refused at the discount houses. In the open market money is reported more abundand at 1 to 2 per cent per month. The demand for exchange on the East is light; but notwithstanding the supply is inadequate, and the counter rates are firm at par buying, and 1-10 premium selling. At Boston there is a diminished demand for money, and consequently, the market is in an easier condition; but the rate for call loans on Government securities is still six per cent, and on miscellaneous collaterals seven, while first-class paper is discounted at 7 to 8 per cent.

—Reference to the proceedings of Congress show that the Senate has amended the loan bill in a very thorough manner. The proposition denying National banks the power of paying interest on country bank balances, is a movement in the right direction, and will go far toward checking speculations in Wall street. The Treasury can do without legislation of any kind, and from sales of 5-20s can get all the money needed to pay off the compounds as they mature. It is to hoped that the Senate will strengthen the Secretary in his efforts to fund the debt, and get the business of the country back as soon as possible to the specie standard.—*N. Y. Tribune.*

—It was reported here yesterday morning, from Washington, that the hundred million bill had been taken up in the Senate and would probably pass. This was given as the reason for the unusual activity in gold, at an advance of 4½ per cent. on the closing sale of Tuesday evening. It was argued that the passage of the bill, with the provision removing the discretion of the Secretary of the Treasury to cancel four millions of indebtedness per month, could not fail to cheapen the currency, and thus advance what is called the "premium" on gold. A little reflection on the report, and on the probabilities of such a measure getting through the Senate, was followed by a reaction in gold, with large operations reported at New York.—*Phila. Ledger.*

PITTSBURGH MARKETS.

OFFICE OF THE PITTSBURGH GAZETTE,
FRIDAY, March 1, 1867.

The produce markets present no new characteristics worthy of special notice. The demand for most of the leading articles is fair, while prices have undergone no quotable change.

GRAIN—Wheat is quiet and unchanged—$2,55 for No. 1 Spring, and $2,80 for prime Red Winter. Prime Spring Barley is in demand at 95 to $1, and but little offering. Oats a shade firmer, may be quoted at 50, on track, and the usual advance in store. Corn is unchanged at 68 to 70, on track. Rye is in demand, and we can report sales at $1,28 to $1,30.

FLOUR—Is steady but unchanged. We continue to quote at $11,50 to $12 for Spring Wheat; $13,50 to $14 for Winter Wheat, and $16 to 17 for fancy brands. Rye Flour selling at $7,50 and Buckwheat at $3,75 to $4.

PROVISIONS—Bacon is selling in a jobbing way at 9½ to 10 for Shoulders; and 14½ to 15 for sugar cured Hams. Lard is still quoted at 12 to 12½ for steamed, and 12¾ to 13 for prime kettle. Mess Pork, $21.

SEEDS—Sale of 6 bbls Cloverseed at $8 to $8,25; and 40 bags Timothy Seed at $3. There is an active demand for Flaxseed, and we continue to quote at $2,80 to $2,85.

BUTTER—Is very dull with a supply greatly in excess of the demand, and prices are still tending downward. Good to prime Roll is quoted at 25 to 30.

EGGS—Very dull and, if anything, a shade lower, sales being reported at 15 to 17—mostly at 17.

POTATOES—Dull but unchanged; small sales in store at $2,50 to $2,75 per bbl, as to quality.

APPLES—Coming in more freely and dull but unchanged. We continue to quote at $2,50 to 3,50 per bbl, as to quality.

DRIED FRUIT—Is dull but unchanged; Small sales in store at 9 to 10 for Apples, Peaches at 16 to 17 for quarters, and 19 to 20 for halves.

LARD OIL.—Is still quoted by manufacturers at 87 to 88 for No. 2, and $1,08 to $1,10 for No. 1.

PITTSBURGH PETROLEUM MARKET

OFFICE OF THE PITTSBURGH GAZETTE,
PITTSBURGH, March 1, 1867.

CRUDE—The market is quiet and devoid of any new features worthy of special notice. We can report a sale of 700 bbls, on the spot, at 7; 2000 bbls, to be delivered between the 10th of March and the 10th of April, at 7¼; and 2500 for March delivery, on private terms. On the spot, quotations may be fairly be given at 7 cts, bbls, returned, and in bulk, and 12, bbls included, for Venango oil of from 40 to 45 gravity. No arrivals of Smith's Ferry oil for several days, and with little or no demand and no sales, it is impossible to give quotations.

REFINED—Not a single sale reported today, and while the market is dull and neglected, prices are unchanged. Our refiners are now coming to the conclusion that refined oil cannot possibly go much lower, and, consequently, they are not disposed to contract ahead very largely at present rates. On the spot, quotations may be given at 21 to 21½, on cars here, and 27 to 27½, delivered in Philadelphia. Free oil is dull but unchanged; may be quoted at 41 to [illegible], in a jobbing way. Sale of 160 bbls Residuum at [illegible] per bbl.

ARRIVALS—The following arrivals of oil were reported to-day:

PITTSBURGH METAL AND BLOOM MARKET—WEEKLY REVIEW.

OFFICE OF THE PITTSBURGH GAZETTE,
FRIDAY, March 1, 1867.

The transactions in metal have again been light this week, and what is worse still, there are no indications apparent at present of any immediate improvement. No settlement of the difficulties between the mill owners and puddlers has as yet been perfected, both being obstinate and refusing to make concessions, either way, and the result is, the mills are nearly all lying idle, and a large number of men are out of employment. There is some little inquiry for foundry iron, and sales are making almost every day, but the transactions are of an unimportant character, and hardly worth recording. We can report sales of 400 tons of muck iron at $76, cash; 100 tons No. 1 Anthracite metal at $53; and some few small sales of Blooms at $110, cash. Manufactured iron is dull, the orders from the west being unusually light for the season, and it is said that some of our mill men are filling orders with eastern iron.

New York Dry Goods Market.

NEW YORK, March 1.—Cotton Goods.—The market is at prices showing no change. Heavy sheetings are steady, the range being 19½ to 22. The best makes New York mills bring 40; inferior looks less buoyant; Red Bank 4-6 sell at 15½; J. and W. Slatter & Sons, 21½; Reynolds, A, 17½. Wide Sheetings 2½@7½c a yard lower. Waltham, 9-4, 55, and Mattawamkeag, 10-4, 65. Prints are steady and in good request. Merrimack, A, 20; Victory, 13; and Empire, 11. Furniture Prints are higher, and now bring 20@25c; Ginghams and Brown Drills being shaded. C. Ross & Son's Tapestry Brussels are reduced to $1,75.

Plain Sugar Cured Hams 15c. Lard advanced ¼c, but no sales reported. Hogs stiff at 6@7c. Whiskey very dull and lower at $2,18@2,19.

Chicago Cattle Market.

CHICAGO, February 28.—The fresh receipts of Beef Cattle to-day at the Union Stock Yards are 3,062 head. Entered sales, 1,264 head, at prices ranging from $4,62½ to 500 for common Cows, and from $6,25 to 7,90 for good to extra choice shipping Beeves. The market is fairly active at about the range of price current at the close yesterday; buyers for the New York, Pittsburgh, Buffalo, Albany and Cleveland markets were out in large numbers, and, owing to the favorable state of the weather and satisfactory Eastern advices, considerable business is being done.

MARKETS BY TELEGRAPH.

New York Financial Matters.

NEW YORK, March 1.—The railway market was firm at the open board and stock exchange, with a decline of ½@⅞ per cent. on the prospective failure of the loan bill. After the regular session the depression continued, and Erie declined to 51¼, which carried down the whole market again. There was a recovery in Erie, however, to 55½@55¾ afterwards, which caused a general improvement from the lowest point. The stock market was firmer at the 1 o'clock board, with an advance of 1 per cent. on steamship shares, but otherwise about the same.

After call the market was about ½c lower, but was better at the second and last open boards, and a steadiness prevailed; and after call became firm without activity. RIVER NEWS.

The river continues to recede slowly at this point with eight and a half feet in the channel by the Allegheny marks last evening. The weather yesterday was cloudy and close with an occasional sprinkling of rain.

The Ida Rees No. 2 arrived and cleared for Oil City, and the Peerless is due here from the same point to day and will return again this evening.

Capt. Perry Brown, an old steamboatman who will be remembered in connection with the Com. Perry, Parthenia, and more recently the Hard Times, has gone into the tinware and stove business at Rochester, Beaver County.

The Maggie Hays, Capt. D. L. Hendrickson, is the regular packet for Cincinnati to day, leaving promptly at noon. The Maggie is an excellent boat in all respects, having superior accommodations for passengers, and is in charge of experienced and courteous officers. Capt. Hendrickson desires us to state that hereafter he will leave here every Saturday, and Cincinnati every Tuesday.

The Ida Stockdale, Capt. Marsh, with Captain T. S. Calhoun in the office, will positively leave for St. Louis and the Missouri River this afternoon. The Minnie, Captain Shaw, will follow for St. Louis at an early day next week, and the Sherman is next in turn after the Minnie.

The Spray left for Cincinnati yesterday afternoon with a fair trip, having a pretty good freight list, and we presume she will pick up enough below to fill her out. The Robt. Moore cleared for Portsmouth.

There has not been a single arrival since our last report aside from the regular packets, and business continues dull at the landing, freights for all points being very scarce.

The America, Capt. T. H. Golding, is up for Nashville, and will be the first boat out for that point. Nashville freight has been very scarce all season.

The Great Republic, Captain Donaldson, is rapidly approaching completion, and will no doubt be ready to leave for New Orleans as advertised. This mammoth steamer is able to stand on her own merits.

The new steamer Elisha Bennett is acknowledged to be one of the finest boats ever introduced into the Pittsburgh and Brownsville packet trade, and besides she will be fast, having powerful engines for a boat of her size. She will be quite an acquisition to the trade, and under the administration of Captain M. A. Cox, is destined to be very popular with the traveling and business public. Sol. Speer has been selected by Captain Cox to take charge of the office, assisted by Thomas Ledlie; Abraham Underwood is chief engineer, and Craven Hogue pilot. These gentlemen are all well known to the patrons of this trade, and with such officers the Elisha Bennett will, we have no doubt, give a good account of herself.

The Messenger, Kate Putnam and Glendale left Cincinnati for Pittsburgh on Wednesday; the Ida Rees was advertised to follow on Thursday and the Argosy on Friday. The Emma No. 3 enroute from New Orleans to Pittsburgh was at Louisville on Wednesday, as was also, the Columbia enroute from Pittsburgh to Nashville.

The Argonaut No. 2 (formerly a Pittsburgh boat) now lying at Shippingport, will be overhauled by Captain George Everhart, and will then enter the Louisville and Memphis trade as a regular packet. A new texas and pilot-house are in process of construction, the machinery repaired, the bow filled in with new timbers, and the cabin refitted and put in order.

Both clerks of the stern-wheel steamer Victor No. 2, died of some disease, supposed to have been caused by the eating of bad pork, while coming down from Osceola last week.

We clip the following items from the Cincinnati *Commercial*, of Thursday: The Wauanita has given up her trip to Pittsburgh, and lays up for the present. The Argosy, from Pittsburgh will arrive here today, and leave for Pittsburgh on Friday, her regular day. The Wauanita reshipped her Pittsburgh freight on the Messenger. The Louisville Bridge Company, which has been chartered for the purpose of building a bridge across the Ohio River, held a meeting Tuesday in Louisville, and elected W. H. Slaughter, Secretary, and Treasurer, and five Directors, Captain Frank Y. Batcheler, was yesterday unanimously elected President and Superintendent of the Marine Charitable Association of this city—the right man in the right place.

The stern wheel steamer Marmora, plying as packet between Vicksburg and Grand Lake, Mississippi, was destroyed by fire on the 16th inst., while lying at Shipband Landing, sixty-six miles above Vicksburg. The fire broke out at about three o'clock in the morning, in the ladies cabin, from causes unknown. The boat was valued at $15,000, and was insured for $8,000. It is reported that the Marmora was owned by the late Charles C. Green, of Cincinnati.

A gentleman from Vincennes says that the steamer Mate has entered the prairie trade, opposite that city. The water covers a breadth of nine miles of land, and the Mate is engaged in carrying the people to high land. Allison's Prairie is all inundated, and a great deal of stock, grain, and other property has already been destroyed.

The new steamer Richmond, built at Madison, Indiana, will be taken to Louisville next week to receive her furniture.

Says the St. Louis *Democrat*: A number of river men who have given the subject deep consideration, are satisfied that the numerous explosions this season and others, on the Mississippi, were caused by sediment from the water deposited in the bottom of the boiler. Actuated by a belief in the this hypothesis, Capt. Jos. Brown has issued instructions requiring all the steamers of the Atlantic & Mississippi Steamship line plying between this port and New Orleans, to halt at Vicksburg on their return trips, cool down, and have their boilers thoroughly cleansed from all sediment and deleterious substances. During floods, and especially at this season of the year, their is an immense quantity of mud in suspension in the river, and the water, so nehow, is unusually liable to a peculiar frothing, soon after it is acted upon by the furnaces. The same parties think that the explosion of the David White was due to the sediment in her boilers. Capt. Brown is satisfied the newly adopted precaution of cleansing the boilers every trip will obviate explosion.

MISCELLANEOUS.

PURE CALIFORNIA WINES.

GURNER & CO.,

No. 80 Cedar St., New York,

Offer for sale these valuable Wines, which are gaining public favor with astonishing rapidity, and whose unprecedented and unrivalled popularity is not without merit. They have only to be fairly tested to give them the preference over all others. As a purifier of blood they excel all other Wines, and the numerous certificates which have voluntarily been tendered from the most eminent physicians, as well as gentlemen in every position in life, are proof conclusive that these Wines are useful in all cases for which they are recommended.

The following brands are now offered by us. They comprise all the varieties now grown in the State as table for sale:

WHITE, or HOCK WINE—Of a light straw colored, very delicate and fine flavored.

CLARET—A superior wine for table use.

ANGELICA—A rich and naturally sweet wine, much admired by ladies, and valuable in the sick chamber, as it makes fine wheys and jellies. It is a fine desert wine, and well adapted for Communion purposes.

MUSCATEL—A light colored, highly aromatic wine. Very similar to the celebrated Tokay.

PORT—Deep red color, fine flavor, and in many respects similar to the old wines of Lisbon.

GRAPE BRANDY—The pure distillation of our wines.

WINE BITTERS—A very agreeable tonic and a sure remedy for the diarrhea.

This is one of the most valuable combinations of a useful and an agreeable beverage that has ever been offered to the public. Millions of bottles were sold throughout the North during the last four years, and wherever introduced it has proved a welcome addition to the invalid table, the family circle, and the bachelor's sideboard.

Ladies who have lost strength and appetite, and suffer from nausea, vomiting and vertigo; gentlemen who "don't feel very well" just before breakfast or dinner, whose stomachs are out of order, and whose systems are generally deranged; mothers weaning children and suffering from general debility; children of sickly nature and sour, dyspeptic constitutions; travelers who have occasion to change their water; and all who live in malarious districts and are subject to miasmatic influences, will find it one of the most valuable invigorators that can be taken.

It was used very extensively in 1861, with such general satisfaction that in offering it to the public now we deem it unnecessary to publish any of the many certificates that we have received, testifying in the very strongest terms in its favor. All that we can say is to guarantee that we will pledge ourselves to furnish an article PURE AND UNADULTERATED.

It has been given to little children suffering from weakness and weak lungs with most happy effect. One little girl, in particular, with pains in her head, loss of appetite and daily wasting consumption, on whom all medical skill has been exhausted, has been entirely restored. She began with but a teaspoonful a day. Her appetite and strength rapidly increased and she is now well.
